PROFILE

Fourth-year AI Engineering student at Mansoura National University with a strong foundation in Python, JavaScript, and C++. Passionate about backend development and data science, with hands-on experience in data competitions and active involvement in engineering organizations. Currently seeking an internship to apply skills in real-world projects.

EDUCATION

B.Eng. in Artificial Intelligence Engineering | Mansoura National University

Sep 2023 – Present

GPA: 3.71 / 4.0 | New Mansoura, Egypt

PROJECTS

Airline Passenger Satisfaction Analysis | [GitHub Repo](#)

- Technologies used: Python, Pandas, Matplotlib, Seaborn, Jupyter Notebook

To-Do List | [GitHub Repo](#)

- Technologies used: Python, SQL

Object-Oriented Programming with JavaScript | [GitHub Repo](#)

- Technologies used: JavaScript with OOP concepts

TECHNICAL SKILLS

Languages: Python, JavaScript, C, C++

Database: SQL (fundamentals)

Data & ML: Pandas, NumPy, Matplotlib, Seaborn, data cleaning, preprocessing, model accuracy optimization

GenAI & LLM: Prompt engineering fundamentals (NVIDIA DLI)

Tools: Git, GitHub, Jupyter Notebook, Google Colab

EXPERIENCE & ORGANIZATIONS

PR & FR Head | Enactus MNU

Aug 2024 – Aug 2025

- Led PR and fundraising efforts for the team's inaugural launch event
- Coordinated outreach and communications for the engineering entrepreneurship team

Data Science Volunteer | IEEE Mansoura Computer Society Chapter

Dec 2024 – Nov 2025

- Competed in a data science competition: data cleaning, preprocessing, and model accuracy optimization
- Applied Python (Pandas, NumPy) to prepare datasets and improve prediction performance

Financial Resources Volunteer | IEEE Mansoura Student Branch

Jul 2025 – Nov 2025

- Supporting financial operations and resource management for the student branch

PR Member | Raise Team – MNU

Mar 2024 – Sep 2025

- Contributed to public relations and communications activities

PR Member | ESA – Engineering Scientific Association

Oct 2024 – Jun 2025

- Participated in engineering community events and science outreach initiatives

COURSES & CERTIFICATIONS

Object-Oriented Programming in Python | DataCamp

Mar 2025

Introduction to NumPy | DataCamp

Apr 2025

Cleaning Data in Python DataCamp	<i>Jul 2025</i>
Data Visualization with Seaborn (Intro + Intermediate) DataCamp	<i>Aug 2025</i>
AI for All: From Basics to GenAI Practice NVIDIA Deep Learning Institute	<i>Jan 2026</i>
Building LLM Applications With Prompt Engineering NVIDIA Deep Learning Institute	<i>Feb 2026</i>

LANGUAGES

Arabic: Native **English:** Conversational (B1)
